Three landscape photographs are displayed side-by-side. The first image on the left shows a dark, rocky island in a calm lake under a night sky with vibrant green aurora borealis. The middle image features a single, dark tree silhouetted against a bright orange and red sunset sky, with mountains visible in the distance. The third image on the right depicts a path lined with large, mature cherry blossom trees in full pink bloom, with sunlight filtering through the leaves.

Welcome!

The domestic cat (*Felis catus*) or *Felis silvestris catus*, informally *Felis domesticus*, is a small, usually furry, domesticated, carnivorous mammal. It is often called the housecat when kept as an indoor pet, or simply the cat when there is no need to distinguish it from other felids and felines. Cats are valued by humans for companionship and their ability to hunt vermin and household pests. They are primarily nocturnal.
